## OUR GOALS

To provide your pet with a uniquely enjoyable SPA experience. Since grooming should be an event your pet looks forward to, we cater to a limited number of pets each day. This ensures that your pet receives the special, personalized attention you would expect from a spa.

Our grooming shop has been carefully designed with specialized equipment to make your pet as happy and comfortable as possible throughout the grooming process.

## THE MANAGEMENT OF PALOUSE PETS GROOMING SPA

Our team possesses both the academic background and association memberships that are specific to pets and their grooming needs. These relationships include:

*JKL Training Academy*  
*Pet Industry Joint Advisory Council*  
*International Professional Groomers*  
*The National Dog Groomers Association of America*  
*Pacific NorthWest Professional Groomers Association*  
*International Society of Canine Cosmetics*

At Palouse Pets Grooming SPA, we provide more than grooming;  
*We pamper your pet with a real spa experience.*

## SPA PACKAGES

The word SPA is an abbreviation derived from “*Sanitas Per Aqua*” or *healing through water*. Your pet can now enjoy a world class SPA treatment at Palouse Pets Grooming SPA. We offer an array of treatments and services designed to soothe and beautify our guests:

*Ear Cleaning*  
*Pain Free Dematting*  
*Brushing & Comb Out*  
*Nails Trimmed & Filed*  
*Hair Removal between pads*  
*Hydrosurge Luxury Bath that combines the*  
*therapeutic concepts of whirlpool baths and hydrotherapy*  
*Total Fluff Drying enhances pet circulation, removes*  
*old undercoat and leaves their coat healthy and soft*  
*A Haircut, if requested, after a rest*  
*A Little Playtime and Treats*  
*ends your best friend's session.*

Our medicated SPA package includes all the services of our standard SPA package in addition to one of the following coat and skin treatments:

*Tea tree oil*  
*Hot oil treatment*  
*Oatmeal treatment*  
*Mink Oil Treatment*  
*Tar and Sulfur treatment*  
*Flea treatment with natural remedies*

---

## AROMATHERAPY

Our Aromatherapy package includes an invigorating SPA session with the use of Aromatherapy rinses. Aromatherapy is more than simply using products that smell good, it is the art and science of using plant-derived essential oils and hydrosols for healing and wellness. In fact, the same naturally occurring chemical components that help plants ward off diseases and pests offer protection for people and animals as well.

We offer two Aromatherapy rinses with flower essences: *Rosemary-Vitamin E* and *Lavender-Vitamin E*. Add pedicures, massage, and teeth brushing to this care regimen and you'll have a concept of the complete pampering menu.

## HAPPY PUPPY PROGRAM

Your new puppy or kitten can learn that grooming can be an enjoyable way to receive attention. Periodic visits with us allow your little one to become familiar with the sounds and smells of our grooming SPA. We make this a fun time filled with lots of praise and treats, helping your puppy or kitten associate grooming with a positive experience.

## OUR GROOMER SPEAKS

"I believe in the continuing expansion of my knowledge and skills. I have completed a pet first aid and CPR course, and attend seminars and specialized classes to keep current on the styles, techniques and new or improved equipment that will make your pet more comfortable while in my care. I *never* use tranquilizers of any kind and all of my shampoos are environmentally safe. I have completed nationally acclaimed grooming seminar courses from Teri DiMarino, Maria Tully, Angie Romani, and have attended dog training and clicker training workshops presented by Gary Wilkes and Karen Pryor, among others."

*"It is my personal goal to provide for you and your pet the best grooming experience. Give us a try  
– I guarantee your complete satisfaction."  
-Donna Wright, Owner & Groomer*
